Sewage Treatment System Site Review Application

Water Quality Program

Review Application requested:

Household Small flow on-site New Replacement Alteration Lot-Split Lot Line Adjustment

Fee: Per lot \$100.00

Additional fee for subdivisions: 1-5 lots \$250.00 6-10 lots \$350.00 16-20 lots \$400.00 20 lots: \$450.00

Application Date: _____

- The parcel must be adequately cleared, mowed, and identified by staking before the evaluation.
- This review must be completed and approved before a permit to install can be issued.
- All appropriate fees must be submitted with this application for each building site, plus platted subdivision fees if applicable.
- This application must be completed after a soil evaluation has been performed by a soil scientist.
- Unless the site review is for a lot split or a subdivision, a designer must submit a design or layout plan of the sewage treatment system.
- If the review is for a lot split, the application must be submitted with a statement from a designer indicating that siting the sewage treatment system would not violate Ohio Administrative Code 3701-29.
