Tick Identification Submission Form

Franklin County Public Health will provide identification of ticks found on or attached to humans as a service for Franklin County residents.

Within two weeks of this submission, you will receive a letter that identifies the type of tick and explains what disease(s) are associated with that species of tick. You will also be informed whether the tick had a blood meal or not. Testing for the presence of disease is not a service we are able to provide. If you have medical concerns, please see your doctor.

Today's Date

Who was the tick attached to or found on?

Name		Was the tick attached? <input type="checkbox"/> Yes <input type="checkbox"/> No	
Address		Age	
City	State	Zip	

Where do you think you may have gotten the tick?

City	County	State
------	--------	-------

Who do you want the results sent to? Same as above

Name		Daytime Phone Number	
Address			
City	State	Zip
