Commissary Agreement Form

Food Safety Program

Pursuant to Chapter 3717-1-09 of the Ohio Administrative Code (OAC), Mobile Food Service and Mobile Food Establishments, which include pushcarts, are designed and approved to operate with certain restrictions, limitations and conditions.

In accordance with Franklin County Public Health, the owner or operator of the pushcart/mobile unit agrees to operate from a licensed food service/food establishment as defined in OAC 3717-1-01, which also includes commissaries.

The owner or operator shall agree to prepare, store, and or cook food at the licensed commissary. In addition, the owner or operator agrees to clean and properly wash/rinse/sanitize all utensils and equipment, dispose of solid waste, and refill the water supply in the licensed commissary.

The owner or operator of the designated commissary agrees to designate and properly identify the area to be used by the owner or operator of the pushcart/mobile unit.

The owner or operator of the commissary shall agree to notify the Food Safety Program of Franklin County Public Health if the owner or operator of the pushcart/mobile unit fails to regularly (any time the pushcart operates) return to the commissary to perform the required tasks outlined in this agreement.

This agreement will expire the last day of February, 2020 (unless noted otherwise).
